About

As a Full Stack Developer, I've successfully taken multiple products. I tackle tasks with enthusiasm and a commitment to excellence, whether it's adding features or fixing bugs. Currently, I work mostly with TypeScript, React, Next, Node and Tailwind. I have over 2 years of experience working remotely with clients and companies.

Experience

Since Remote

2023 - 2024

Full Stack Developer

Implemented new features, contributed to the development of the company's flagship product, and led the development of the sales module. Technologies used: TypeScript, Next, MongoDB.

Workana Remote

2022 - 2023

Freelancer Developer

Completed multiple client projects with top ratings, ranking 5th among Freelancers in my country. Skilled in backend and frontend development using JavaScript, React, Node, MySQL.

Education

ONE - Oracle Next Education
